## A Program Designed to Inspire Creativity

### No Experience Necessary

Photos are more than snapping pictures on a phone. They can tell amazing stories and help us see the world around us in new and exciting ways. Our photojournalism program will help you turn your camera into a storytelling machine, and we'll help you find those moments you'll cherish for years to come. In this program you will learn:

- How to spot a great photo before you've even taken a picture
- How to express yourself through pictures
- Exciting jobs you can pursue in journalism and communications
